INVITATION

The National Agriculture and Food Centre, as a partner of the „Workshops on long-term agricultural effects on soils, as the natural resources of sustainability” project invites you for a 2-days workshop on the following topics: **„Changes in soil physical and chemical properties in a long-term experiment: effect of soil cultivation methods. Agrotechnical methods in cultivation of perennial energetic plants.”**

Date of the event: 16-17 October, 2017. 9:00

Place of the event: NPPC - Research Institute of Agroecology Michalovce,
Research Center of Milhostov.

Program

Sunday 15. 10. 2017 Arrival of participants of the conference

Monday 16. 10. 2017

9.00 - 9:30 Registration of participants

9.30 - 9:45 Opening of conference

9:45 - 10:00 *Coffee break*

10:00 - 10:30 *Ing. Balla Pavol, PhD*, National Agriculture and Food Centre
Effects of soil cultivation methods on the yield in a crop rotation with 4 plant species

10:30 - 11:00 *Ing. Kovač Ladislav, PhD.*, National Agriculture and Food Centre
Effects of cultivation of some untypical plants on soil physical properties

11:00 - 11:30 *Ing. Jakubova Jana*, National Agriculture and Food Centre
Effects of soil cultivation methods on economical results of cultivated plants

11:30 - 12:00 *Ing. Pavol Porvaz, PhD.*, National Agriculture and Food Centre
Uses of energy plants for the production of biofuels

12:20 - 13:50 *Lunch*

14:00 - 16:00 Tour of experiments

Tuesday 17. 10. 2017

9:00 - 12:00 Soil protection technology in practice I. (Field trip)

10:15 – 10:30 *Coffee break*

9:00 - 12:00 Soil protection technology in practice II. (Field trip)

12:20 - 13:50 *Lunch*

13:50 – 15:00 Conclusions of the workshop. Discussion about the experiments and results with the participants. Possible co-operations for the future.

15:00 Closing of the workshop
